CHILDREN'S FUND GUIDELINES

Before submitting the application for Children's Fund support, please consider the following questions:

- Is this child on your caseload? (Please only submit applications for children with whom you currently work. If other children in the family need support, please provide information regarding the Children's Fund to the counselors/teachers working directly with siblings of this child.)
- Is there a unique, emerging need which you are working to address with this particular child? (The Children's Fund is designed to provide for specific needs, such as for a needed school or extra-curricular item that no other program or service will fund. Given the number of PA children below the poverty line, we know that this fund is unable to provide grants to all children who live in poverty.)
- Have you checked with other sources to see if they provide funding for such a need? Examples include:
 - Your county's assistance office
 - Local Lions Clubs (for eyeglass assistance)
 - Organizations within your school or school district such as a Parent-Teacher Organization or a foundation which helps students with financial needs.
 - Other sources unique to your geographic area

If you've checked the boxes above and find that no other help is available, please complete the application and submit it to the Area Coordinator for your county.
